

INFO STRIP

This vertical display system takes up very little space, making it suitable for a variety of locations in a home or office. The Info Strip is a hanging system for documents such as cards, photos and drawings; a handy way to collect and/or display documents. Cards, photos and other documents may be slid into both sides of the aluminium strip. Magnets may be used on the front of the rail for displaying photos on the rail, for example. This display system can be a practical addition to the wall in an office, kitchen or children's bedroom.

Practical use for narrow sections of wall

The Info Strip is a sleek aluminium strip that is one metre (100 cm) long. The Info Strip is mounted vertically to the wall by clicking the rail onto 2 clips. The Info Strip takes up very little space, making it easy to mount on narrow sections of wall in a variety of locations in a home or office.
